

REMARKS

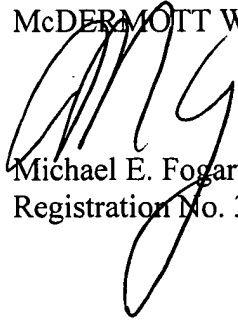

In response to pending Office Action, Applicants have cancelled claims 2 and 4-6, without prejudice, and have added new claims 16-21. Support for new claims 16 and 17 can be found, for example, in paragraph [0037] of USP Pub. No. 2005/0058207 (which is the publication corresponding to the above-identified application), and support for new claims 18-21 can be found in the original claims, as well as the corresponding portions of the specification. Finally, paragraph [0061] has been amended so as to correct an inadvertent omission in the specification. No new matter has been added.

Applicants note with appreciation the indication that claims 8-15 are allowable as set forth on page 4 of the Office Action. In response to the pending rejection of claim 1, Applicants have amended claim 1, which is a system claim, so as to substantially correspond to allowed claim 8, which is a method claim. Applicants respectfully submit that claim 1 is now in condition for allowance for at least the same reasons that claim 8 is allowable. Moreover, as claims 3, 7 and 16-21 all depend on claim 1, these claims are also in condition for allowance at least based on their dependency on claim 1.

Having fully and completely responded to all pending issues set forth in the Office Action, Applicants respectfully submit that the application is now in condition for allowance.

Please charge any shortage in fees due in connection with the filing of this paper,
including extension of time fees, to Deposit Account No. 500417 and please credit any excess
fees to such deposit account.
